Welcome To Our Company Profile

INNOVATIVE TECHWORKS GROUP

Building Technology. Developing Talent.
Enabling Growth.

ESTD: 2023

Established in 2023, Innovative TechWorks Group is a technology and artificial intelligence solutions company focused on building scalable software systems and developing skilled technology professionals.

We operate at the intersection of software engineering, artificial intelligence, and professional technology education, enabling organizations to transform ideas into powerful digital platforms.

Our ecosystem includes two specialized divisions:

- **TechWorks Ltd** – Software & Technology Solutions
- **Innovative Skills Ltd** – Education & Professional Training

Through these divisions we deliver advanced technology systems and industry-ready talent for the global digital economy.

Who We Are?

Innovative TechWorks Group is built on a strong foundation of engineering excellence, research capability, and structured skill development.

Our work focuses on solving real-world technological challenges through software development, artificial intelligence systems, and data-driven technologies.

At the same time, we develop industry-ready professionals through structured training programs designed to bridge the gap between academic learning and practical industry requirements.

Our approach is execution-focused, process-driven, and outcome-oriented.

Our Divisions

Software & AI Solutions

TechWorks Ltd is the software engineering and technology solutions division of the Group. We design and develop advanced digital systems for startups, enterprises, and technology partners worldwide.

Our engineering team focuses on building scalable, secure, and performance driven software platforms that help organizations grow and operate more efficiently.

We approach every project with a focus on:

- › Engineering quality
- › Scalable architecture
- › Real-world usability
- › Long-term business value

Our mission is simple:

Build technology that works in the real world.

Our Core Technology Services

Custom Software Development

Tailored software platforms for specific business needs.

AI-powered solutions for computer vision and automation.

Artificial Intelligence Systems

Enterprise Web Applications

Secure and scalable web platforms for enterprise operations.

Design of data infrastructure and intelligent decision-support tools.

Data Engineering & Analytics

AI Chat & Automation Systems

LLM-powered assistants and automated digital interaction platforms.

AI systems for image analysis and intelligent surveillance.

Computer Vision Systems

UI/UX Engineering

User-focused design systems for intuitive digital experiences.

Comprehensive testing frameworks to ensure software reliability.

Software Quality Assurance

Engineering Excellence

Technology companies succeed through engineering discipline.
Our engineering culture emphasizes:

Foundations of Engineering Excellence

Structured Architecture

Emphasizes organized and efficient system design.

High-Performance Systems

Focuses on creating systems that operate at peak efficiency.

Cloud-Ready Scalability

Ensures systems can easily adapt to growing demands.

Continuous Optimization

Highlights the ongoing process of improving system performance.

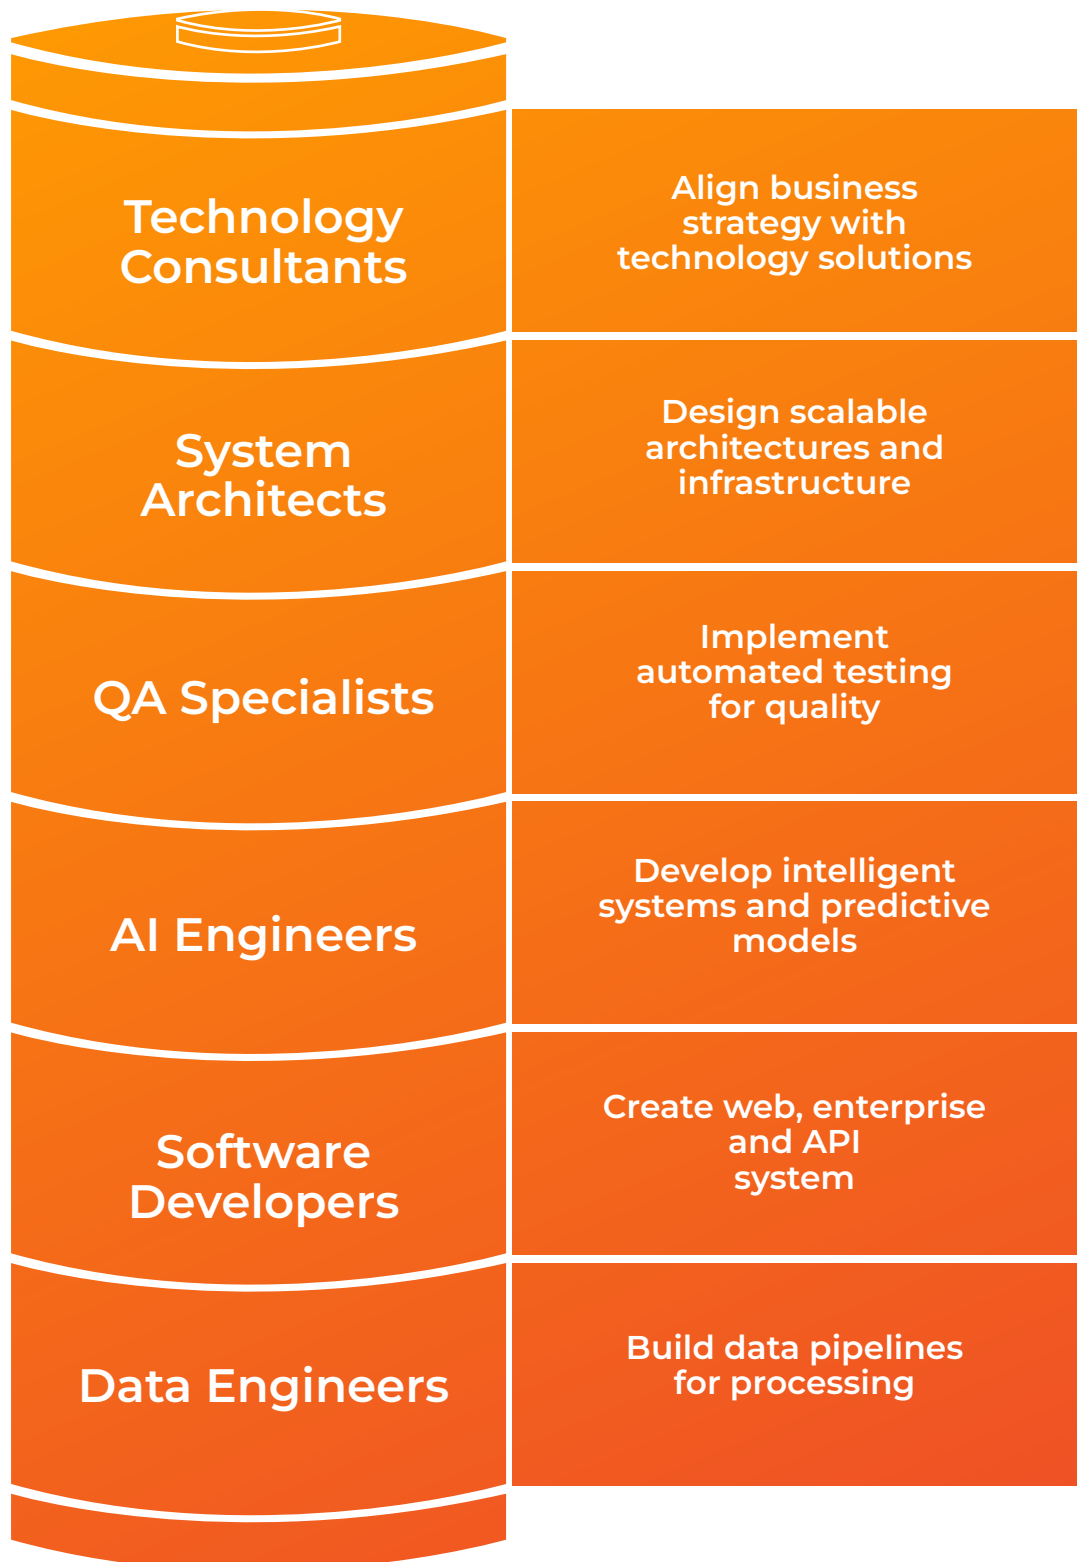

Robust Quality Assurance

Guarantees the reliability and effectiveness of solutions.

Our Multidisciplinary Teams Include

Engineering roles range from technical implementation to strategic alignment. Together we build systems that deliver reliability, performance, and long-term scalability.

Education & Professional Training

Innovative Skills Ltd is the technology education and professional training division of Innovative TechWorks Group.

Our programs are designed to develop future technology professionals through practical, project-based learning environments.

Our Training areas:

 <p>Artificial Intelligence</p> <p>Machine Learning, Deep Learning, Backend Development, Data Science, DevOps & MLOps, Software Quality Assurance, and AI Agent Development.</p>	 <p>Machine Learning</p> <p>A subset of AI focused on algorithms that learn from data.</p>	 <p>Deep Learning</p> <p>A subset of Machine Learning using neural networks with many layers.</p>	 <p>Backend Development</p> <p>Building the server-side logic and databases for applications.</p>
 <p>Data Science</p> <p>Extracting insights and knowledge from data.</p>	 <p>DevOps & MLOps</p> <p>Practices that combine software development and IT operations, with a focus on Machine Learning.</p>	 <p>Software Quality Assurance</p> <p>Ensuring software meets quality standards and is free of defects.</p>	 <p>AI Agent Development</p> <p>Creating intelligent agents that can perform tasks autonomously.</p>

Our training model focuses on real-world skills, practical implementation, and career development.

Research & Innovation

Research and innovation are key pillars of Innovative TechWorks Group. Our research activities focus on applied artificial intelligence, intelligent systems, cybersecurity, and advanced computational technologies. We integrate academic research methodology with industry-driven development to create scalable and practical solutions.

Our Research Domains

Our objective is to transform research innovation into real-world technology applications.

Board of Directors

Our Board provides the strategic oversight and governance necessary to drive long-term value for our stakeholders.

Salman M Sultan
Co-Founder & Chairman

Mir Wasif Islam
Co-Founder & Managing Director

Shakil M Sultan
Co-Founder & Director
(Sales Operation)

Banzir Ahamed
Co-Founder & Director
(Finance)

Executive Leadership

Hasan Mahmud Rhidoy
Co-Founder & Head of Technical Support

Reaz Rahman
Co-Founder & Head of Human Resource

Shihab Al Mahmud
Co-Founder & Head of Creative

Masud Islam Fahim
Co-Founder & Head of AI

Why Choose Innovative TechWorks Group

Organizations partner with Innovative TechWorks Group for our unique combination of technology expertise, research capability, and execution discipline.

Strength of Innovative Techworks Group

- Engineering Driven Development**
Structured processes and technical architecture ensure robust project execution.
- AI & Emerging Technology Expertise**
Specialization in advanced technologies like AI and machine learning.
- Research-Backed Innovation**
Integration of applied research with real-world implementation.
- Scalable Technology Solutions**
Specialization in advanced technologies like AI and machine learning.
- Integrated Talent Ecosystem**
Continuous development of skilled professionals to enhance technology capabilities.

Global Impact

Since our founding in 2023, we have continuously expanded our reach in technology

From startup to global impact

- Founding**
Technology services and education startup.
- Expansion**
Continuous growth in services and education.
- Client Growth**
Serving **150+** clients worldwide.
- Project Delivery**
Completing **500+** technology projects.
- Learner Engagement**
10,000+ active learners globally.

Global Impact
Building technology solutions and skilled
